Subject: Re: Pornographic content is still being distributed by Utah schools

Brooke,

Thank you for your diligent effort to protect children from materials that are scientifically proven to harm the mental, emotional and even physical well being of our school children.

Does this report only pertain to the book Bag of Bones?

Kindly,

Ken

I don't have a lot of time to spend doing this research. I only work on it for about ten hours a week. If we had someone doing this full time and alerting schools to this content, so much more could be done. Please help find a solution to protect Utah's kids.

Sincerely,

Brooke Stephens
